BUSINESS

City Engineering and Building staff and TEC Construction reviewed the SR 741 Realignment and Cox-Smith Road Reconstruction. They discussed traffic movements at different times of day, options for improvements based on reducing conflict points and improving traffic movement and volume, and results from not improving versus improving SR 741. The Cox-Smith Road Reconstruction updates a road that was previously in place for City and subdivision access and adding a bike path and sidewalk.

Residents provided feedback to SR 741 options and expressed concerns about traffic impacts on Cox-Smith Road. Council agreed to consider options and concerns raised.
