

CITY OF MASON RESIDENT

Your participation in the 2020 Census is extremely valuable and greatly appreciated. Census data is used to determine the level of federal funding and where to allocate funds for education, health care, economic development, transportation services, parks and recreation, schools, infrastructure, and other investments. In addition, census data guides private-sector investment decisions on where to invest in job creation, new facilities, and marketing. A good and accurate Census count affects the City of Mason's future and our quality of life. Please respond to the US 2020 Census questionnaire. Further information can be found at: <https://2020census.gov/>
